Bride and Groom Lessons

Want to impress your wedding guests (and new in-laws) with more than a shuffle around the floor? Stressed about enough things on your to-do list without having to worry about learning dance steps? Fancy learning an easy, yet impressive, dance in a fun & relaxed atmosphere?

We can help you - Your first dance as "the happy couple" is one of the most remarkable moments of your Wedding Day. Ceroc can help you both look amazing on the dance floor, even if you have no dance experience and two left feet!

Ceroc is a smooth, stylish partner dance with no complicated footwork so it is very easy to learn. We can teach you Ceroc moves during group classes and/or private lessons, plus we can discuss how to structure your dance around what you want.

You might want to learn something basic like a combination of 4 - 6 moves, which you could repeat and dance in any order (that way you can never 'go wrong!'). Usually you would also learn a very safe "dip" to finish your dance off with an impressive flourish for the photo opportunity.

Alternatively, if you prefer to know exactly what you should be doing and when, then we can set
